Frontend Development: JavaScript | Vue Js | jQuery | React Js | Redux | Zustand | Alpine Js | HTML | CSS | Tailwind | Bootstrap
Others: AWS | Git | Linux | Nginx | Apache | Jira | Bitbucket | Agile Methodology

Experience

Full Stack Web Developer — HGS OSS — *BGC, Taguig, PH* — **01/2023 - Current**

- Optimizing the system by resolving N+1 issues, which helps the Payroll process finish earlier.
- Implementing clean code principles to ensure the code is easy to maintain, scalable, and understandable for future development, leading to more efficient collaboration and reduced technical debt.
- Creating automations that reduce redundancy and repetitive tasks, enhancing overall efficiency.
- Successfully integrated the RMS API into the company's job listing platform, enhancing job posting and application capabilities.
- Collaborating with other teams to integrate new features, offering the best solutions to their challenges.

Tech Stacks: **Laravel | PHP | MySQL | JavaScript | jQuery | Bootstrap Css**

Assistant Lead Developer — Transcosmos Asia Inc. — *Ortigas, Pasig, PH* — **06/2021 - 01/2023**

- Led the design and development of the HRIS application, overseeing the project from concept to implementation and ensuring it met all functional requirements.
- Managed two developers, providing guidance and teaching fundamental Laravel concepts to support their growth and project success.
- Collaborated with the HR team to integrate new features, enhancing functionality and addressing their needs.
- Developed an API using Laravel Passport to enable secure connections and integrations with other systems.

Tech Stacks: **Laravel | Passport | PHP | MySQL | JavaScript | Vue | jQuery | Bootstrap Css**

Web Developer *(Part Time)* — Talently Recruiting Inc. — *Newport Beach, California, USA* — **09/2021 - 10/2022**

- Developed an outreach automation system from scratch using Laravel for the backend and React JS for the frontend, which automated recruitment processes, significantly enhancing the company's ability to successfully recruit employees.
- Handled web application and server maintenance on AWS, focusing on security, scalability, and cost efficiency. Regularly maintained and monitored systems to keep everything running smoothly.
- Integrated third-party systems like SendGrid, Microsoft Outlook API, RingCentral, and Zoho Recruit, allowing the app to connect effortlessly with other tools. This saved users from the hassle of manually transferring data between platforms.
- Implemented feature and unit testing with Laravel's PHPUnit, which made our code more reliable, helped catch bugs early, and gave us more confidence when deploying new changes.

Tech Stacks: **Laravel | Sanctum | PHPUnit | Redis | PHP | MySQL | JavaScript | React | Bootstrap 5**

Full Stack Web Developer — Speed Regalo Inc. — *Pair-Pags, Pasay, PH* — **10/2019 - 06/2021**

- Optimized the Speedregalo e-commerce site by fixing N+1 issues, enhancing transaction speed and increasing sales.
- Integrated payment systems such as WeChat, DragonPay, and ExpressPay, providing broader payment options.
- Developed an API with Laravel Passport for Speedregalo's courier partner to automate order status updates.
- Built an e-commerce web application from scratch for Suy Sing Grocery Express using the TALL stack.

Tech Stacks: **Laravel | Passport | Livewire | PHP | MySQL | JavaScript | Alpine Js | Tailwind Css**

Junior Web Developer — DIGITS Inc. — *Valero, Makati, PH* — **04/2018 - 10/2019**

- Developed customized web applications for the Manila International Airport Authority (MIAA), including a Document Tracking System, Employee Evaluation System, and Gender Sensitivity Survey System.
- Deployed web applications on Ubuntu Linux servers within an intranet environment, ensuring smooth and reliable operation.

Tech Stacks: **PHP | MySQL | JavaScript | jQuery | Bootstrap Css**

Education

Bachelor of Science in Information Technology — Lyceum Of Alabang — *Muntinlupa, PH* — **06/2014 - 04/2018**
